

KaspaMama \$MAMA

Content: 1) Story 2) Tokenomics 3) Sales /Minting 4) Transparency 5) Thanks & Socials

KaspaMama is a story of a legendary crypto degen Mama

KaspaMama is a 1000x to 10000x gem sniper. She found her real diamond gem Kaspa early 2022, she did HODL through DIPS and FUD, and learned that the safest place to be is in KASPA, the most advanced GhostDag technology.

You fellow crypto kaspa degens need a Mama, don't you!

KaspaMama Memecoin \$MAMA:

The Protector and Nurturer of Kaspa GhostDag and KRC-20 Tokens

In the chaotic world of cryptocurrencies, where coins rise and fall like waves, there was a figure known as CryptoMama. She wasn't just any trader or investor; she was the nurturing force that held the community together. CryptoMama was always there, guiding new investors through the turbulent markets, comforting those who panicked during a dip, and teaching the importance of HODLing and doing your own research.

CryptoMama knew that the crypto space, often driven by greed and FOMO, needed a mama—a steady hand to remind everyone that behind every memecoin, every blockchain, and every wallet was a human being. She organized virtual meetups, spread positive vibes, and made sure that the community thrived on kindness and knowledge, not just numbers on a screen.

But, she had to go through a transformation:

CryptoMama aped into Kaspa early in 2022, and has been HODLing ever since: In order to protect the crypto fellows, she had to go through a transformation and change her name, and here we are:

On August 30th, 2024 Cryptomama transformed to KaspaMama.

And with this transformation a Memecoin **\$MAMA** was born.

With her warm heart and savvy mind, KaspaMama made sure the crypto world wasn't just about profits—it was about people. And in a space that could often feel like the wild west, KaspaMama was the beacon of hope, proving that even in the digital age, everyone needs a mama.

Crypto is easy for Mama.
but crypto folks need \$MAMA

Tokenomics:

100% fair Launch. 98% for widespread distribution and Liquidity.

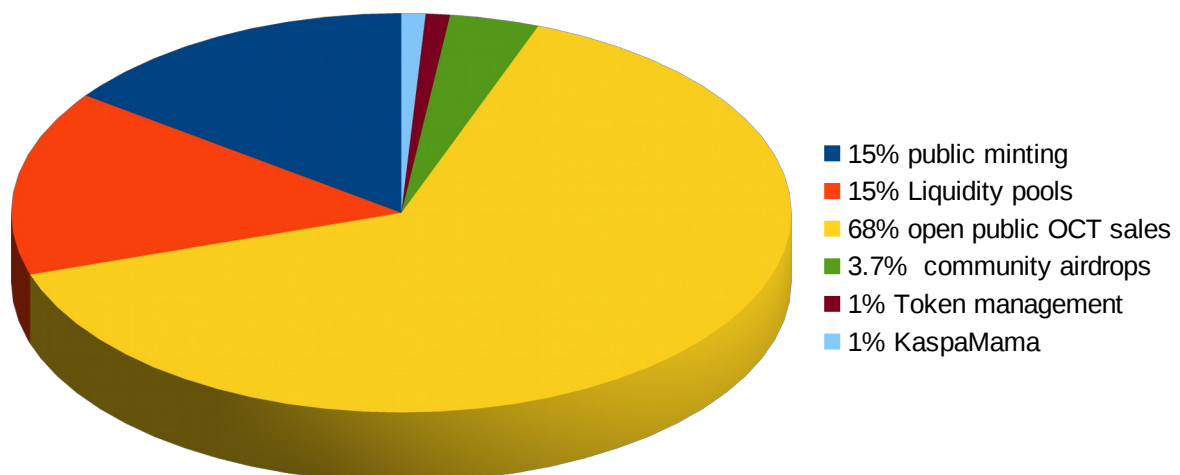

No early whales or VC accumulation to dump on later retail.

Total supply: 77'777'000

8 decimals: Total Sompi: 7'777'700'000'000'000 = 7777 Trillion Sompis

KaspaMama Tokenomic & graph:

Allocations	Amount tokens	% share
15% public minting	11'666'550	15%
15% Liquidity pools	11'666'550	15%
68% open public OTC sales	50'000'000	64.3%
3.7% community airdrops	2'888'360	3.7%
1% Token management	777'770	1%
1% KaspaMama	777'770	1%
Total supply	77'777'000	100%
Widespread token distribution:	76'221'460	98%
premint: 85%	66110450	85%
Tokens per mint:	150	
Mints possible:	77777	

KaspaMama \$MAMA OTC Sales:

It's your only chance to get the \$Mama Token at the lowest price!

The dump protection will make it unlikely to dump the price below this initial sales price for longer than several hours or few days.

80% of the fund from the OTC (over the counter) Sales will be used to fund

Dex /Swap Liquidity Pools and for buying up price dumps!

The cost to mint \$MAMA is higher than the OTC sales price!

500 Tickets for 500 proven individuals available.

This will guarantee a widespread distribution among 500 individuals at lowest price. First come (pay) first serve.

You must prove to be human with tg and x username.

50'000'000 (64.3% of Token supply) on Sales.

Those 50 Million are sold according to the following table.

1 Ticket costs 500 Kas	you get \$Mama tokens	1 Kas gets
Frist 1-100 buyers	110'000	220
101-200	105'000	210
avg. 201-300	100'000	200
301-400	95'000	190
401-500	90'000	180
public minting (minting costs min 1kas or more, depending on gas fees)	75000 (500 mints)	150 (1 mint)
Public mints possible:	77'777 mints possible	

The leftover of 2'888'360 tokens (3.7%) is reserved for airdrops to active KaspaMama community members and KaspaMama campaigns.

Fully sold and minted initial FD marketcap estimation:

$52'888'360 + 11'666'550 = 64'554'910$ Tokens. Costs: $77777 + 250000 = 327'777$ Kas.

This is the minimum number since minting costs can be significantly higher than 1 kas per mint.

$327777 / 64554910 = 0.005077491$ Kas per token.

$0.005077491 \times \text{total supply } 77777000 = 394'912$ Kas = estimated minimum fd marketcap.

Disclaimer: Those are estimations based on fully sold out and fully minted tokens. Market cap calculations are not an exact measure to display the real value. The fact that 80% of the sales funds are used for LP's and price support (buying dips) is most important for the true value of the token - and marketcap calculations are oftentimes just out of thin air, where the current price of low liquidity is calculated times total supply. \$MAMA is a far better concept than the fiat shit coins out there you are forced to pay taxes or most memecoins.

Where and when is the OTC Sale:

Kaspamama likes 100% fair token launches for all you retail degens out there and is therefore assisted and supervised by Mambo's fair launch advise.

\$MAMA Sales: the link to ticket sales form is in the sales post on **X.com/Kaspamama** and telegram @KaspamamaGroup and below. Do not click other links to avoid scammers!

Sales planned start is on Monday September 16, 2024.

How: Fill in the presales form. <https://forms.gle/NdTcSD96MfKVWavo6>

To be eligible to buy a ticket:

1. you must follow <https://x.com/Kaspamama>
2. and join the krc-20 telegram group: <https://t.me/KaspaMamaGroup> and comment on the sales post with your username on x or tg.
3. **Fill in the form:** you must give
 - your X account name @xyz.. and
 - your telegram name @xyzname
 - your Kaspa address with which you pay the ticket and to receive the tokens after deployment
4. And of course you must pay the ticket **to the address in the sales form application.**

Pay 500 Kas to this KaspaMama sales address:

kaspa:qpdrfjam593gvs8t8h607y7qkvvp0q60d9qkmtyd4dprrxfn6vq2q0rsx6y25

In the case that not all tokens reserved for sales are sold within 4 weeks, we will put them on marketplace at 5x, 10x, 100x and 1000x or higher prices. We may although consider to send a part into dead wallets (like to burn them).

Applications have to be controlled and paid out manually. Give us up to 2 weeks time.
